

Sinclair Broadcasting's forcing its stations to broadcast a blatantly partisan anti-Kerry pseudo documentary just before the Presidential election violates all the precepts of broadcasting fairness. Sinclair Broadcasting will be betraying its obligation to serve the public trust.

I hope the FCC will do its duty to the American public & put Sinclair Broadcasting on notice that to air the documentary without a REAL rebuttal of equal weight, aired at an equally favorable time before the election & with the same degree of promotion & access, will seriously risk its license renewal. Thank you.
